

HEAVY METALS in SOIL

Analytical Laboratories Servicing Oregon

The following is a list of analytical laboratories that provide soil analyses for heavy metals (ie: arsenic, cadmium, lead, etc.). This list should be used for informational purposes only and is not intended to be an endorsement by the Oregon Health Authority of any laboratory. These laboratories have been accredited by the Oregon Environmental Laboratory Accreditation Program (ORELAP). Prices may vary.

To find additional laboratories, visit <http://lams.nelac-institute.org/search> (Use search term 'EPA 3050B' or 'EPA 6000' under the Method tab entry). Some labs may not accept residential soil samples, so it is important to contact the lab before sending a sample.

CH2M Hill Applied Sciences Laboratory

1100 NE Circle Blvd, Suite 300
Corvallis, OR 97330
541-768-3120; FAX 541-752-0276
